

Report from Cllr Hancock – SHDC

8th August 2023

Recycling/Refuse update

The full recycling scheme is continuing to be rolled out across South Hams in the Autumn. It has been delayed due to the delay in being able to source recycling lorries that are able to access the narrow roads/lanes across the Parish.

Once the lorries have been received and all the infrastructure in place further information will be sent out to residents. Everyone should then move to the new recycling system and recycling bags should no longer be required.

If there are any issues during the change over period, please contact the refuse department of SHDC in the first instance
