

# Please Help Diptford Get *Superfast Fibre Broadband FTTP* for the Whole Community - FOR FREE

In partnership with Diptford Parish Council

If enough of us sign up and pledge our interest, Openreach/BT **will cover all the costs** of setting up and supplying Superfast FTTP fibre broadband directly to all our homes.

**It will cost you nothing.**

Even if your speeds are quite good, please sign up. You will benefit and every signup helps those of us who currently only get rubbish speeds. It also adds value to your house.

Each household or business which signs up attracts a voucher; these are funded by the government. They are currently free and enable Openreach/BT to pay for the installation.

Each household to sign up generates a voucher worth £1500 (£3500 for a business). Your current provider will connect you to the fibre network for free so long as they are on Openreach's extensive list:

[www.openreach.com/fibre-broadband/fttp-providers](http://www.openreach.com/fibre-broadband/fttp-providers)

**THIS IS URGENT** as the Government is ending this funding in a few months and to install FTTP after that would be very expensive.

*How can I help?*

1. Please email [garrafibre@gmail.com](mailto:garrafibre@gmail.com) now to say that you would like FTTP into your house.
2. When we have enough pledges, you will be asked to sign up to the official Government Voucher Scheme.
3. Within a year of the completion of the paperwork, fibre will have been installed into your home or business.

Any queries phone our community volunteer Paul on 0778 5757 450 or email [garrafibre@gmail.com](mailto:garrafibre@gmail.com)

THIS WILL ONLY WORK IF WE ALL JOIN IN TOGETHER FOR THE  
BENEFIT OF OUR COMMUNITY – PLEASE HELP!
